AVENGELYNE™

Avengelyne is a fallen angel who has been sent to earth as a punishment for sins. Once a fearsome member of God's angelic army, the **Warhost**, Avengelyne must now live as a mortal, albeit with extraordinary physical strength.

After arriving in **New York in the** Avengelyne mini-series, Avengelyne discovered that other fallen angels were inhabiting Manhattan. But rather than endure God's punishment, these angels had joined forces with the **Dragon** and now roamed the earth as powerful **Demons** and **Demon Lords.**

Luckily, Avengelyne found refuge in the **St. Augustine church** and there she met a young priest named **Peter** as well as his mentor, **Father Malory**. By coming to St. Augustine, Avengelyne unwittingly became involved in a battle against a powerful demon lord, **B'liale**, who was attempting to use the church to open a demonic gateway. Avengelyne stopped B'liale and successfully banished him to Purgatory.

Later, after an encounter with the demon/angel hybrid **Devlin** and **Glory** in the Avengelyne/Glory crossover, Avengelyne journeyed to **Los Angeles**, where she faced the evil machinations of Hollywood and the demon lord of that region, **Lord Evitz.** Foiling Evitz's plan to seize political control of **Washington**, Avengelyne and Peter fled to **Las Vegas** where they battled the demon cadre known as the **Seven Deadly Sins** in the two issue Avengelyne Deadly Sins mini-series.

Now, Avengelyne and Peter have at last returned to New York to face **Lord B'liale** (who recently escaped Purgatory) and deal with the consequences of Avengelyne's baby in the Avengelyne ongoing series—

GLORY™

Born long ago on the **Isle of Paradise,** Amazonia, **Gloriana Demeter** is the heir to the throne of that mystic land and princess of the Amazonian people. The product of a mating between the demonic **Lord Silverfall** and the beautiful **Lady Demeter**, Glory's hybrid nature has made her both a skilled and ferocious warrior. At home in neither of her parent's dimensions, **Glory** fled to the world of man and for decades has been one of earth's greatest heroines.

For most of that time, the Amazonians of the Isle of Paradise have lain in a deathlike sleep of enchantment, watched over by Glory's mother, Lady Demeter, and a hand full of attendants. When she must, Glory can use the natural magic that exists where air meets water or darkness meets light to slip into the dimensions where her parents dwell. Recently, during the epic Angela/Glory Rage of Angels story line, she aided in a celestial war to keep a demon in angel's clothing (Celestine) from conquering both Paradise and Earth.

Glory's best friends are Rumble, a brilliant scholar with the ability to grow into a simple-minded giant, and her cousin Vandal, a human/demon hybrid. In recent issues of Glory, Vandal was attacked by a monster who prowled the singles scene, leeching off the life energies of his victims in an attempt to extend his own waning life. Glory came to Vandal's aid, but the zombie love king was irresistibly drawn to her demonic life energy, and apparently died in the fight that ensued. Since then, Glory has come to suspect that the voracious undead predator was part of a secret government project to reanimate the dead, but she hasn't learned the whole truth yet...so be sure to check out the double sized Glory #12 anniversary issue for the latest!
